

# Company Overview

## MTO | Cape

MTO Cape covers an area of 98 469 hectares, of which 44 883 hectares are planted to pine. The Cape produces round wood logs for sale to its own sawmills, external sawmills and pole processing plants. Our plantations run from Tokai in the south to Longmore near Port Elizabeth in the east. We have a highly skilled workforce and strong management with many years of experience. MTO adheres to sustainable certification standards that subscribe to world class compliance regulations. MTO Cape currently operates three sawmills and produces a premium quality lumber; Cape Pine.

## MTO | Lowveld

MTO Lowveld covers an area of 69 392 hectares of which 46 335 hectares are planted to eucalyptus. The Lowveld is considered to be a preferred location and growth rates are compared with the best in the industry. Our plantations run from the north near Tzaneen to the south near Barberton. We have an experienced team of timber experts and managers responsible for the cultivation and delivery of the wide range of products derived from our forests. All our operations are run according to sustainable certification standards that ensure a safe and high level working environment. We grow top quality eucalyptus transmission poles, mining timber, building and fencing poles, pulp and other speciality commodities.

## MTO | Solutions

Is the technical centre of our business. It is a shared services group with expert technical resources tasked to do major integrated Capex projects and provide high-level technical and engineering services across the MTO Group and the GEF portfolio companies. Team members all play a role in supporting a high performance culture by analysing forestry resources, investigating market synergies and optimising industrial solutions to link the resources and markets, and are ultimately responsible to motivate and project manage turnkey industrial value adding projects.

## MTO | Global

Is the heartbeat of our business. It's the intelligence centre focused on the market and its customers. We strive to deliver exceptional service in time and in full and we offer quality products sourced from around the globe to ensure customer satisfaction. We are passionate about timber and timber derivatives and strive to optimise its applications based on what the customers need. MTO | Global is driven by its customers and partners. It is directly responsible to deliver on our promise to become a fully integrated "one stop shop" buying solution. We are determined to change the way business is done by challenging convention and the norm. We will continue to seek innovate mechanisms to optimise solutions that are geared at deriving maximum value and benefit for our customers and partners.

## MTO | Group

Is the nerve centre of our business. The core directive given to the executives is to enable the business divisions. The Group will drive our strategy from the bottom up and engender our culture and values through committed and passionate participation at every level. Transparency is the key to our success. We are excited by communication and relationships, and we value partnerships and understand that we are stronger together.

## MTO | Cares

Is the community centre of our business. We are proud to be involved in a number of projects. It is our goal to enable our communities, through sport and education, to learn the disciplines of life and the requisite skills to succeed. We have a nutrition programme that includes supplementing a meal for 3500 staff members every day. One of our values is to lead with respect and humility. We encourage this in our homes, our workplaces and our communities.
